START HERE

Run your business your way

Lots of ADHD brains are brilliant at ideas, creativity and getting things started. The day-to-day of running a business (admin, money, follow-ups, focus) can be harder. This planner is built for exactly that.

HOW IT WORKS

1. Start with **your business on one page** and a big **brain dump**.
2. Choose **three 90-day goals**. Only three.
3. Each week, use the **weekly CEO page** to pick what matters.
4. Park new ideas in the **idea parking lot** so they don't derail you.
5. Review each month, celebrate wins and adjust.

BUILT FOR BUSY BRAINS

- [ ] Undated: start any week
- [ ] Three goals at a time, not twelve
- [ ] A focus filter for shiny new ideas
- [ ] Weekly pages, not daily guilt
- [ ] Money pages that take five minutes
- [ ] A "stuck" page for frozen days

FOUNDATIONS

My business on one page

When you feel scattered, come back here.

WHAT I SELL

WHO IT'S FOR

THE PROBLEM I SOLVE

WHY I STARTED

WHAT MAKES ME DIFFERENT

WHERE I SELL

IN ONE SENTENCE, MY BUSINESS HELPS...

WHAT SUCCESS LOOKS LIKE FOR ME (NOT ANYONE ELSE)

FOUNDATIONS

The big brain dump

Every idea, task, worry and "I should really...". Get it all out, then sort it.

NOTES

FOUNDATIONS

The focus filter

New idea? Run it through these questions before you start. Most ideas can wait in the parking lot.

1	**Does this help one of my three goals?**	Yes ○ No ○
2	**Is it the most important thing right now?**	Yes ○ No ○
3	**Can I finish what I've already started first?**	Yes ○ No ○
4	**Will it still be a good idea in four weeks?**	Yes ○ No ○
5	**Do I have the time, energy and money for it now?**	Yes ○ No ○

Mostly yes? Add it to this week's plan. **Mostly no?** Park it. Parked ideas aren't lost, they're just waiting their turn.

IDEA I'M TESTING

KEEP THIS HANDY

Stuck? Business edition

When you're frozen at your desk, follow the arrows.

Notice it — You're stuck, not lazy. It happens to everyone.

↓

Body check — Water, food, fresh air, a stretch. Fix one.

↓

Pick one task — The smallest one that moves a goal forward.

↓

Make it tiny — What's the first five-minute action? Open the file. Write one line.

↓

Add a boost — Music, a body double, a timer, a change of place, a reward.

↓

Start the timer — Ten minutes. Stop when it rings if you like.

↓

Log the win — Write it on your wins list. Momentum counts.
