MAKING TAX DIGITAL FOR INCOME TAX

HMRC is moving sole traders and landlords to digital records and quarterly updates. It started in April 2026 for qualifying income over £50,000, is due to apply from April 2027 for income over £30,000, and is planned for income over £20,000 from April 2028. If it applies to you, you'll need compatible software, but these pages still help you keep on top of your numbers.
