Editing your templates

Your order of service, memorial sign, thank-you cards and memory cards are Microsoft Word files. They also open in Apple Pages, Google Docs and LibreOffice.

1 · INSTALL THE FONTS (2 MINUTES)

The templates use two free Google fonts: **Cormorant Garamond** (fonts.google.com/specimen/Cormorant+Garamond) and **Poppins** (fonts.google.com/specimen/Poppins). Both are free. Download, double-click each font file and choose Install, then reopen the template.

Using Google Docs or Canva? Both fonts are already built in.

2 · EDIT IN WORD

- [ ] Click on any words to change them: names, dates, music and readings
- [ ] To change a photo: right-click it and choose **Change Picture** (Mac: Control-click). Photos keep the same size
- [ ] Each order of service is one A4 sheet, printed on both sides and folded to A5
- [ ] Page 1 is the outside (back on the left, front on the right). Page 2 is the inside
- [ ] Keep text inside each half so it doesn't spill onto the next panel

3 · PRINT

- [ ] Print a test copy on plain paper first and fold it to check everything lines up
- [ ] Print double-sided and choose **flip on short edge**. Fold in half
- [ ] Thick paper (160–250gsm) looks lovely. Most printers take up to 200gsm
- [ ] For lots of copies, take the file (saved as PDF) to a local print shop. Ask for A4, double-sided, folded to A5
- [ ] Save as PDF: File › Save As › PDF (Word) or File › Download › PDF (Google Docs)
- [ ] Thank-you and memory cards print 4 per A4 sheet. Cut along the dashed lines

Using Canva instead? Save the Word file as a PDF, then upload it to Canva and edit the text there. Canva may substitute fonts: pick Cormorant Garamond and Poppins from its font list.

Your purchase is for personal use. Please don't share or resell the template files. Need help? Message us on Etsy and we'll gladly help.
