START HERE

Your Wedding Mega Bundle

Inside: the Calm Wedding Planner (PDF), the Wedding Budget & Guest Manager spreadsheet, and an editable stationery suite. The stationery files are PowerPoint, which also open in Keynote, Google Slides and Canva.

1 · INSTALL THE FONTS (2 MINUTES)

The templates use two free Google fonts: **Cormorant Garamond** (fonts.google.com/specimen/Cormorant+Garamond) and **Poppins** (fonts.google.com/specimen/Poppins). Both are free. Download, double-click each font file and choose Install, then reopen the template.

Using Google Docs or Canva? Both fonts are available in their font lists (in Google Docs, choose Fonts › More fonts).

2 · EDIT IN POWERPOINT

- [ ] Click any text to change it: names, dates, venue, times, menu and table names
- [ ] Each slide is one piece of stationery, already set to the right size
- [ ] Duplicate a slide (right-click › Duplicate) to make more table numbers or seating columns
- [ ] Change colours: select text and pick a new colour. The flower illustrations are images you can move, resize or delete
- [ ] Google Slides: upload to Google Drive, then open with Google Slides. Canva: Create a design › Import file

3 · PRINT

- [ ] Save as PDF first: File › Export (or Save As) › PDF
- [ ] Invitation suite: 5x7 in (127x178mm). Print at home on card, or ask a print shop for 5x7 on 300gsm card
- [ ] Signs: A3. They scale perfectly to A2 or A1 at a print shop (same shape)
- [ ] Table numbers: 4x6 in. Print on card and trim, or ask a print shop
- [ ] Place cards: 10 per A4 sheet. Cut along the dashed lines and use card holders
- [ ] Always print one test copy and check spelling before printing the rest

Spreadsheet: open **Wedding Budget & Guest Manager.xlsx** in Excel, Google Sheets or Numbers and start on the Settings tab. The EXAMPLE file shows a filled-in version.

Your purchase is for personal use. Please don't share or resell the template files. Need help? Message us on Etsy and we'll gladly help.
